

Environmental Policy

Nexon Group believes it has an important duty to ensure good environmental performance in all its business operations and to provide the necessary organisation, commitment and training to fulfil this obligation. The monitoring and improving of environmental performance, pollution prevention and environmental protection within the Company has my personal commitment and support, and the commitment and support of management and staff.

These aims will be achieved through:

Incorporating environmental responsibility into all business operations by planning environmental protection, reviewing and developing policy, by setting targets and reviewing and auditing performance.

Ensuring continued compliance with all current environmental legislation.

Implementing a systematic waste minimisation programme to achieve objectives and targets to reduce waste.

Reviewing, monitoring and updating of our product portfolio to offer products which have been engineered to support environmental and sustainability goals wherever possible. Being committed to maintain effective communication systems on environmental matters through training and improved awareness.

Being committed to CO2 reduction through a modern fleet and constant progressive route planning.

Nexon Group (the company) will promote its objectives and will respond positively to enquiries and suggestions from both inside and outside the company.

All employees have responsibilities for policy implementation by participating and contributing to its success through their actions and suggestions.

A member of staff is appointed to have the authority and responsibility for the implementation and maintenance of the Environmental Systems.

This policy is continually reviewed for its suitability.

P Green Director
