

# Tips for Cleaning Pancake Day Mess

nexon

kinder > smarter > better

1. Liberally cover **spilled eggs** with salt and leave for 10 minutes. The salt will mix with the egg and form a paste, which is much easier to wipe up with a microfibre cloth.
2. For stains on **clothing**, try removing as much as you can with a blunt knife or spoon, being careful not to damage the fabric. Pre-treat the stain by running the underside of the fabric under cold water, then rub a drop of washing up liquid or laundry detergent into the stain, to help break down any oils. Launder as per instructions.
3. For **carpets**, remove any wet spills with a spoon or other blunt object as best you can. Then apply a carpet cleaning product and follow the manufacturer's instructions. If you don't have a carpet cleaner to hand use a microfibre cloth and a mild solution of washing up liquid and water.
4. Before vacuuming any **spilt flour**, use a dustpan and brush. Don't reach straight for the vacuum as too much flour can clog it up!
5. Clean **pans** immediately with hot soapy water. If this doesn't work try natural cleaning options such as baking soda mixed with water or olive oil until it becomes a paste. You can also mix half a cup of vinegar with half a cup of water and heat in your pan for 5-10 minutes and allow to cool, before washing as normal. It's important to remember never to use anything abrasive on non-stick pans.
